

Interim Management Statement for the three months ended 31st March 2010

29th April 2010, London: Jardine Lloyd Thompson Group plc ("JLT") is holding its Annual General Meeting at 12 noon today where the following comments will be made regarding current trading, financial performance and the outlook for the financial year. This statement covers the period from 1st January to 31st March 2010.

There have been no material events or transactions in the first quarter, other than the acquisition of iimia Wealth Management for £7.25m in January which we reported on when announcing our preliminary results on 2 March. There have been no significant changes in the financial position of the Company since the publication of the Annual Report for the year ended 31st December 2009.

Market Conditions

We are now seeing an increasingly soft insurance rating environment across most sectors. The US domestic insurance market for general property & casualty risks is the softest we have seen since the events of 11th September 2001. Some stabilisation of insurance rates is, however, discernible in certain specialist lines.

Performance during the period

For the first three months of 2010, JLT's trading performance has been in line with our expectations across the Group.

Our Risk & Insurance businesses continue to show encouraging rates of organic growth despite the weak insurance rating environment.

Investment income continues to be impacted by low prevailing interest rates and this is not expected to change materially in the medium term.

In our Employee Benefits division, the integration of HSBC Actuaries and Consultants Limited and iimia Wealth Management is progressing well and they are performing in line with our expectations.

Outlook

Trading activity in the first quarter has been encouraging and whilst it is early in the year we remain on track to achieve our objectives for 2010.
