

JARDINE LLOYD THOMPSON GROUP plc PRELIMINARY RESULTS FOR THE YEAR ENDED 31st DECEMBER 2011 (UNAUDITED)

Jardine Lloyd Thompson Group plc ("JLT" or "the Group") announces preliminary results for the year ended 31st December 2011.

Financial Summary

	2011 £m	2010 £m	Change
Total revenue*	818.8	746.3	10%
Underlying trading profit **	147.0	129.9	13%
Trading margin	18.0%	17.4%	
Underlying profit before tax **	147.6	130.1	13%
Reported profit before tax	134.5	119.4	13%
Underlying earnings per share (diluted)**	45.3p	40.5p	12%
Reported earnings per share (diluted)	40.4p	41.7p	(3%)
Dividend per share	24.0p	22.5p	7%

^{*} Total revenue comprises fees and commissions and investment income.

Highlights

- Strong organic growth of 7%
- Total revenue growth of 10% to £818.8 million
- Particularly strong revenue growth in high growth economies with Asia +28% and Latin America +19%
- Underlying profit before tax increase of 13% to £147.6 million
- Group trading margin improves to 18% whilst still investing for growth
- Further investment for growth through selective acquisitions and minority stakes
- Increased shareholding of Jardine Matheson provides further strategic support and enhances JLT's business and prospects
- Business Transformation Programme now expected to deliver £23 million of recurring annualised cost savings
- Dividend increased to 24p per share

Dominic Burke, Chief Executive, commented:

"Our emphasis on being a client-first organisation continues to serve us well, as demonstrated by our strong growth record. Our strategy, built around growing our areas of specialty, strengthening our international footprint and driving efficiency, provides us with confidence that we will continue to make financial progress in 2012."

^{**} Underlying results exclude exceptional and non-recurring items.

FULL RELEASE FOLLOWS:

PRELIMINARY STATEMENT

JLT has again delivered a strong financial performance amidst challenging economic conditions, which included lacklustre GDP growth in mature markets and a soft insurance rating environment. Driving this performance has been strong organic growth of 7%, the increasing realisation of the benefits of our continued recruitment of leading industry professionals, carefully selected acquisitions and our increasing exposure to high growth economies.

The 2011 results are summarised in the table below:

£m	-	Total R	evenue		Trading Margin		gin	Tra	ading Pro	fit
Risk & Insurance:	2011	Growth	CRE	Organic	2011	CRE	2010	2011	CRE	2010

Organic growth is based on total revenue excluding the effect of currency, acquisitions, disposals and investment income. Total revenue comprises fees and commissions and investment income.

CRE: Constant rates of exchange.

Total revenue increased by 10% to £818.8 million compared to 2010, or 8% at constant rates of exchange (CRE), including organic growth of 7%. Total revenue and underlying trading profit includes investment income on fiduciary funds of £6.8 million (2010: £5.6 million).

Underlying trading profit increased by 13% to £147.0 million, or 10% at CRE. The underlying trading margin increased from 17.4% to 18.0%, notwithstanding continued investment for growth throughout the Group.

The contribution to profit after tax from associates was £5.1 million compared to £3.7 million in 2010, which included our share of Siaci Saint Honoré in France, in which JLT now has a 26% stake.

Underlying profit before tax was £147.6 million, 13% ahead of 2010. Reported profit before tax was £134.5 million compared to £119.4 million in the prior year, an increase of 13%. This is after charging net exceptional costs of £13.1 million, comprising Business Transformation Programme costs of £8.9 million, advisory costs of £1.9 million associated with the Jardine Matheson partial offer, costs associated with the restructuring of our Italian operations of £1.7 million and acquisition integration costs of £0.6 million.

The tax charge was £39.2 million, or £41.6 million on an underlying basis. The 2010 comparative included a non-recurring tax credit of £13.2 million, relating largely to a re-assessment of the Group's tax position following the resolution with tax authorities of several long outstanding tax matters. The underlying effective tax rate for 2011 was 28%.

Profit after tax and non-controlling interests was £88.7 million (2010: £90.7 million which included the benefit of the non-recurring tax credit). Diluted earnings per share were 40.4p per share (on a reported basis for the year).

Underlying profit after tax and non-controlling interests increased by 13% to £99.4 million and underlying diluted earnings per share increased by 12% to 45.3p per share.

DIVIDENDS

Subject to shareholder approval, the final dividend will be increased by 1.1p per share to 14.8p per share for the year to 31st December 2011 and will be paid on 1st May 2012 to shareholders on the register at 10th April 2012. This brings the total dividend for the year to 24p per share, compared to 22.5p for the prior year, an increase of 7%.

OPERATIONAL REVIEW

Risk & Insurance

Combined revenue in Risk & Insurance increased by 11% to £642.4 million or 9% at CRE, with strong organic growth of 8%. Underlying trading profit increased by 8% to £140.3 million for the year, with an unchanged trading margin of 22%.

Retail

Within the Risk & Insurance Group, Retail revenue increased by 15% to £312.5 million, or 11% at CRE, and included 10% organic growth. Underlying trading profit increased by 10% to £70.1 million for the year, representing an underlying trading margin of 22%, or 23% at CRE, compared to 24% for the prior year.

	Total Revenue				Tra	ding Pro	ofit	Trading Margin		
£m	2011	Growth	CRE	Organic	2011	CRE	2010	2011	CRE	2010
Australasia	125.6	16%	6%	5%	34.9	31.8	29.9	28%	28%	28%
Asia	81.9	28%	29%	29%	17.3	18.8	13.7	21%	23%	21%
Latin America	48.8	19%	19%	19%	14.9	15.1	11.7	31%	31%	28%
Canada	30.0	(1%)	(2%)	(2%)	3.9	3.9	4.9	13%	13%	16%
Europe	20.9	(4%)	(7%)	(17%)	(0.6)	(0.6)	3.5	(3%)	(3%)	16%
Other	5.3	8%	11%	12%	(0.3)	(0.3)	0.3	(5%)	(5%)	6%
	312.5	15%	11%	10%	70.1	68.7	64.0	22%	23%	24%

The Group's retail businesses achieved a good overall performance, although individual results were mixed with strong performances in Asia, Latin America and Australasia. Our Canadian and some of our European businesses had a more difficult year and this impacted the overall retail trading margin.

Australasia delivered increased revenues, up 16% which was principally due to the effect of the strengthening Australian dollar. At constant rates of exchange, the increase was 6%. Organic growth was 5%, with a number of significant new business wins contributing to this result.

Asia once again had strong revenue growth, delivering an increase of 28% for the year and maintained its trading margin of 21% (23% at CRE). The Group made further investments in the region in senior hires and won major new corporate accounts notably in the Telecommunications and Energy sectors. There has been a rapid expansion of our employee benefits capabilities in the region and these are now a significant contributor to our profit in Asia.

Our operations in Latin America performed well with organic revenue growth of 19%. The trading margin increased from 28% to 31%. The acquisition of Orbital in Chile continued the Group's expansion in the region. Our operations in Latin America and Asia once again benefited from the Group's areas of specialisation such as Natural Resources, Construction, Telecommunications and Aviation being important drivers of economic growth in these regions.

Canada had a more difficult trading environment with a disappointing performance resulting in a 1% fall in revenue and a lower trading margin. The anticipated improvement in trading in the second half did not occur and the leadership of this business was changed at the beginning of 2012.

In Europe, the results were mixed with Ireland and the Nordic region delivering strong performances. The acquisition in late December 2011 of FBD Insurance Brokers, a specialist broker in the Irish agrifood sector provides a potential new area of specialisation for the Group.

In Southern Europe the performance of our Italian business was unsatisfactory and action was taken to restructure and merge that business with an independent specialty broker, Marine & Aviation SpA. More recently, we merged our Spanish business with March-Unipsa, the largest independent insurance broker in Spain (which is subject to regulatory approval). In both countries, we have a 25% stake in the combined businesses.

London Market

Revenue in our London Market operations increased to £329.9 million up 8%, or 7% at CRE, with notable organic growth of 7% in what was a very competitive marketplace throughout 2011.

The trading profit margin was unchanged at 21%, despite our ongoing investment in the recruitment of leading industry professionals.

	Total Revenue				Trac	Trading Profit			Trading Margin		
£m	2011	Growth	CRE	Organic	2011	CRE	2010	2011	CRE	2010	
JLT Specialty	205.7	11%	10%	9%	42.6	40.8	38.4	21%	20%	21%	
Lloyd & Partners	72.3	3%	2%	2%	16.3	15.8	16.9	23%	22%	24%	
JLT Re	51.9	5%	4%	3%	11.3	11.0	10.4	22%	21%	21%	
	329.9	8%	7%	7%	70.2	67.6	65.7	21%	21%	21%	

JLT Specialty achieved significant new business wins in Aviation, Energy, Construction, Marine, Credit & Political Risks and Real Estate and its revenue grew to £205.7 million, an increase of 11%, or 10% at CRE, with 9% organic growth. The recently expanded Financial Risks specialty is developing in line with our expectations.

Lloyd & Partners, the Group's specialist wholesale broker, had a good second half and delivered a 3% increase in revenue at £72.3 million with 2% organic growth. As a large part of Lloyd & Partners' business is derived from the US market, which was extremely competitive in 2011, this was an encouraging result.

During 2011, JLT Reinsurance Brokers, the Group's reinsurance broking business, achieved revenues of £51.9 million and organic growth of 3%. The trading margin also improved to 22% from 21% despite ongoing investment. This included the opening of new offices in three countries to expand the Group's global reinsurance capabilities, the addition of treaty reinsurance skills in Singapore and a move into the Life Reinsurance sector in Switzerland.

UK & Ireland Employee Benefits

	Total Revenue			Trading Profit				Trading Margin			
£m	2011	Growth	CRE	Organic	2011	CRE	2010	_	2011	CRE	2010
Employee											
Benefits	137.0	5%	5%	5%	26.0	26.0	21.7		19%	19%	17%

The UK & Ireland Employee Benefits business had a strong year with revenue growth of 5% and an improved trading margin of 19%, up from 17%, reflecting the strength and success of the diversification of this business in recent years.

The business is evolving as the marketplace changes with its defined contribution pension, benefits and wealth management businesses expanding with a focus on technology solutions.

As previously indicated, from 2012 we will additionally report our Employee Benefits revenue and trading profit on an international basis.

Thistle Insurance Services

	Total Revenue				Trading Profit			Trading Margin			
£m	2011	Growth	CRE	Organic	_	2011	CRE	2010	 2011	CRE	2010
Thistle Insurance Services	39.4	_	_	_		5.8	5.8	5.5	15%	15%	14%

The lack of consumer confidence in the UK and Thistle's exit from a significant but unprofitable book of business in 2010 has contributed to a flat revenue performance in 2011. The trading margin has continued to improve to 15% and underlying organic revenue (excluding the exited book of business) grew by 4%.

Thistle is still in the investment phase of its development. We remain committed to the business model which is being successfully adapted in both Australia and Canada and there are plans to extend this into Asia and Latin America.

BUSINESS TRANSFORMATION PROGRAMME

We started a three year Business Transformation Programme in July 2009 and this remains on track to complete by June 2012. It is estimated that the programme will deliver recurring annual savings of £23 million for total one-off costs of £27 million. Whilst the programme has reduced our cost base and enabled us to reinvest for growth, just as importantly it has provided improved quality and service to clients.

As this non-recurring expenditure has been significant, the programme costs are being treated as exceptional. The additional one-off costs in 2012 are forecast to be £4 million, generating a recurring benefit of £5 million.

CASH FLOW AND BALANCE SHEET

Net debt at 31st December 2011 was £100 million. The Group has committed unsecured long term debt facilities equivalent to £352 million, with maturities between 2015 and 2022. Gross borrowings as at 31st December 2011 were £190 million, leaving unutilised committed headroom of approximately £162 million.

Net pension liabilities increased by £48 million to £121 million. This is mainly due to a reduction in the interest rate assumptions used to measure accounting liabilities. Otherwise the key assumptions remain broadly consistent.

FOREIGN EXCHANGE

The Group's major currency transaction exposure arises in the London Market businesses which currently earn annual US dollar denominated revenue of approximately US\$265 million. Consequently, the Group's results are sensitive to changes in the Sterling/US dollar exchange rate. The Group continues to operate a prudent US dollar hedging programme to smooth out the volatility caused by exchange rate movements. As a guide, each one cent movement in the achieved rate currently translates into a change of approximately £1 million in revenue and a corresponding impact on trading profit equal to approximately 65% of the revenue change. Based on current hedging levels in 2012, it would take a movement of seven cents in the spot rate to create a one cent movement in the achieved rate.

In 2011, the Group achieved an average rate after hedging of US\$1.52 compared to an average market rate of US\$1.60.

As at 28th February 2012, some 86% of anticipated dollar revenues for 2012 are hedged at an average rate of US\$1.54. For 2013, some 85% of dollar revenues are hedged at an average rate of US\$1.54 and 70% hedged for 2014 at an average rate of US\$1.56. We have now also commenced our rolling hedging for 2015, with 20% hedged at an average rate of US\$1.53.

OUTLOOK

Our emphasis on being a client-first organisation continues to serve us well, as demonstrated by our strong growth record. Our strategy, built around growing our areas of specialty, strengthening our international footprint and driving efficiency, provides us with confidence that we will continue to make financial progress in 2012.

Exchange (losses)/gains on cash and cash equivalents		(3,604)	1,321
Cash and cash equivalents at end of the year	12	573,616	524,865

1. Basis of preparation

The Group's consolidated financial statements have been prepared under the historical cost convention as modified by the revaluation of available-for-sale investments and derivative financial instruments and using accounting policies and presentation which comply with International Financial Reporting Standards (IFRS).

The Group's accounting policies are set out in the 2010 Annual Report & Financial Statements.

2. Alternative income statement

The format of the consolidated income statement on page 9 conforms to the requirements of IFRS. The alternative income statement set out below, which is provided by way of additional information, has been prepared on a basis that conforms more closely to the approach adopted by the Group in assessing its performance.

_	Year to 31st December 2011				
_	Underlying profit £'000	Exceptional items £'000	Total £'000

Profit before taxation	130,100	(10,731)	119,369

3. Segment information

Management has determined its operating segments based on the analysis used to make strategic decisions.

Business segment analysis

The Group is organised on a worldwide basis into five main segments: London Market, Retail, Employee Benefits, Thistle Insurance Services and Head Office & Other operations. These segments are consistent with the internal reporting structure of the Group.

The London Market segment comprises JLT's specialist, wholesale and reinsurance broking activities. The Retail segment comprises the Group international insurance broking and risk services activities. The Employee Benefits segment consists of pension administration, outsourcing and employee benefits consultancy. The Thistle Insurance Services segment provides solutions to Affinities, SME and retail markets via its own business units as well as third party brokers, mainly through open-market placements, delegated authorities and Managed General Underwriting (MGU) arrangements. The Head Office & Other segment consists mainly of holding companies, the central administration function, the Group's captive insurance companies and the Group's principal investments in associates.

Segment results

Management assesses the performance of the operating segments based upon a measure of underlying trading profit. Segment results include the net income or expense derived from the trading activities of the segment together with the investment income earned on fiduciary funds. Interest income on the Group's own funds and finance costs are excluded since the trading activities of the Group's primary segments are not of a financial nature. Income tax expense and the change in respect of non-controlling interests is excluded from the segmental allocation.

Segment assets include:

- non current assets excluding investments in associates and deferred tax assets
- trade and other receivables
- fiduciary funds

Interest bearing assets (e.g. cash & cash equivalents and investments & deposits) relating to the Group's own funds are excluded from segmental assets.

Segment liabilities include:

- trade and other payables
- provisions for liabilities and charges

Interest bearing liabilities (e.g. borrowings) and income & deferred tax liabilities are excluded from segment liabilities.

Items excluded from segmental allocation are referred to as "unallocated".

Investments in associates

On 31st December 2011 the Group acquired 25 per cent of the Marine and Aviation Group which operates mainly in Italy. Following a restructuring in July 2011, the Group increased its stake in the holding company of Siaci Saint Honoré, which operates principally in France, from 20 to 26 per cent. In 2010, the Group acquired 20 per cent of the Austrian company GrECo which operates mainly in Austria and Eastern Europe. The investment and the Group's share of Siaci Saint Honoré's, GrECo's and Marine and Aviation's net profits are included in the Head Office & other segment, together with the investment and results of the Group's other associates, Sterling Re Intermediaro de Reaseguro SA de CV, JLT Insurance Malta and ICAP-JLT.

Capital expenditure comprises additions to property, plant and equipment and intangible assets.

Comparatives for 2010 have been restated to reflect the transfer of businesses between the Employee Benefits and Thistle Insurance Services segments.

Geographical segment analysis

Although the Group's four business segments are managed on a worldwide basis, they operate in five principal geographical areas of the world.

The United Kingdom is the home country of the parent company Jardine Lloyd Thompson Group plc.

The London Market segment operates in the United Kingdom, its home country. In the Americas, the London Market segment operates in Bermuda, Cayman Islands and the United States. In Europe, it operates in France, Spain, Switzerland and Russia. In Asia, it operates in Singapore.

The Retail segment operates in the Americas, in Bermuda, Brazil, Canada, Colombia, Mexico, Peru and Chile. In Europe, it operates in the Republic of Ireland, Italy, Spain, Poland, Sweden, Finland, Norway and Guernsey. The Australasian segment includes operations in Australia and New Zealand. The Asian segment includes operations in Singapore, Hong Kong, Taiwan, Indonesia, Japan, Thailand, Korea, Philippines, Malaysia, China and Vietnam. In Africa, it operates in South Africa.

The Employee benefits segment operates in the United Kingdom, its home country and the Republic of Ireland.

The Thistle Insurance Services segment operates in the United Kingdom, its home country.

The Head Office & Other activities segment is mainly based in the United Kingdom with minor operations in the United States, Europe and Asia. The Group's captive operations are included in the United Kingdom segment.

5. Finance income and costs

5. Finance income and costs	2011 £'000	2010 £'000
Interest receivable - own funds Investment income from fixed asset investments Interest receivable from HMRC	1,174 2 -	2,896 - 936
Interest expense: - bank and other borrowings - finance leases - interest in respect of liability discounting	(6,974) (53) (350)	(4,423) (85) (629)
Pension financing: - expected return on post employment scheme assets - interest on post employment scheme liabilities Net pension financing income/(expense)	30,893 (29,345) 1,548	28,740 (29,902) (1,162)
Fair value gains/(losses) on financial instruments - forward contracts: fair value hedges	92	(128)
Finance costs - net	(4,561)	(2,595)
Finance costs Finance income	(7,377) 2,816	(6,427) 3,832
Finance costs - net	(4,561)	(2,595)
6. Income tax expense		
	2011 £'000	2010 £'000
Current tax expense		
Current year Under/(over) provided in prior years	41,611 337	33,305 (6,025)
	41,948	27,280
Deferred tax expense Origination and reversal of temporary differences Reduction in tax rate Benefit of tax losses recognised	(1,775) 697 (1,056)	1,821 535 -
Adjustments in respect of prior years	(604)	(5,082)
	(2,738)	(2,726)
Total income tax expense	39,210	24,554

There were no non-recurring tax credits in the year. In 2010 there were non-recurring tax credits of £5,180,000 relating to the release of tax provisions, and £5,113,000 relating to the release of a deferred tax liability in respect of overseas earnings no longer expected to be repatriated in the foreseeable future.

6. Income tax expense cont'd

The UK Government has announced various measures in relation to UK corporation tax including a 2% reduction in the headline rate of corporation tax from April 2011, and 1% in the three subsequent years to reduce the UK tax rate from 28% to 23%. As at 31st December 2011 the 2% rate reduction to 26% is already in force and only the first subsequent 1% rate reduction has been substantively enacted. Therefore the impact of the two remaining annual 1% reductions have not been incorporated in the income tax charge for the year ended 31st December 2011. The impact of a 1% rate reduction in the deferred tax balances as at 31st December 2011 would result in the following changes:

	1% rate change
	£'000
Impact on Income Statement	367
Impact on Reserves	809

The tax on the Group's profit before tax differs from the theoretical amount that would arise using the tax rate of the home country of the Company as follows:

	2011	2010
	£'000	£'000
Profit before taxation	134,479	119,369
Tax calculated at UK Corporation Tax rate of 26.5% (2010: 28%)	35,637	33,423
Non-deductible expenses *	4,771	2,323
Tax losses not previously recognised	(347)	(1,170)
Adjustments to tax charge in respect of prior years	(267)	(11,107)
Benefit of tax losses recognised	(1,056)	-
Effect of UK and non-UK tax rate differences	1,090	1,824
Effect of reduction in UK tax rate	734	317
Tax on associates	(1,352)	(1,056)
Total income tax expense	39,210	24,554

^{*} The non-deductible expenses relate principally to non-deductible entertainment expenses.

7. Dividends

	2011 £'000	2010 £'000
Final dividend in respect of 2010 of 13.7 p per share (2009: 12.5p) Less: adjustment*	30,743 (866)	27,690 (592)
Interim dividend in respect of 2011 of 9.2p per share (2010: 8.8p)	29,877 20,123	27,098 19,182
	50,000	46,280

^{*} Adjustment relating to dividend equivalents accrued in respect of various performance related share awards and long-term incentive plans not currently anticipated to fully vest.

A final dividend in respect of 2011 of 14.8p per share (2010: 13.7p) amounting to a total of £32,274,000 (2010: £29,685,000) is proposed by the Board. The dividend proposed will not be accounted for until it has been approved at the Annual General Meeting on 26th April 2012.

8. Earnings per share

Basic earnings per share are calculated by dividing the profit attributable to the owners of the parent by the weighted average number of ordinary shares in issue during the year, excluding unallocated shares held by the Trustees of the Employee Share Ownership Plan Trust.

Diluted earnings per share are calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares.

Additional basic and diluted earnings per share are also calculated based on underlying earnings attributable to the owners of the parent.

A reconciliation of earnings is set out below.

			No	2011 of shares	N	2010 o. of shares
Weighted average number of ordinary shares in issue Effect of outstanding share options		2	218,127,384 1,291,994	2	216,663,347 960,089	
Adjusted weighted average number of ordinary shares for diluted earnings per share		2	219,419,378		217,623,436	
		2011			2010	
		Basic pence per	Diluted pence per		Basic pence per	Diluted pence
	£'000	share	share	£'000	share	per share
Earnings reconciliation						
Underlying profit after taxation and non-controlling interests	99,447	45.6	45.3	88,219	40.7	40.5
Exceptional items and non-recurring items before tax	(13,093)			(10,731)		
Taxation thereon	2,392			2,883		
Non-recurring tax credit	-			10,293		
	(10,701)	(4.9)	(4.9)	2,445	1.1	1.2
Profit attributable to the owners of the parent	88,746	40.7	40.4	90,664	41.8	41.7

9. Available-for-sale financial assets

Available for sale financial assets are categorised according to their nature into one of two categories:

- Investments and deposits, which consist mainly of Bonds, Commercial Paper and Fixed Deposits these
 investments are held at fair value and are classified between current and non-current assets according to maturity
 date.
- Other investments, which include securities and other investments held for strategic purposes these investments are held at fair value unless a fair value cannot be accurately determined in which case they are held at cost less any provision for impairment.

10. Derivative financial instruments cont'd

The Group's treasury policies are approved by the Board and are implemented by a centralised treasury department. The treasury department operates within a framework of policies and procedures that establishes specific guidelines to manage currency risk, liquidity risk and interest rate risk and the use of counter-parties and financial instruments to manage these. The treasury department is subject to regular internal audit.

The Group uses various derivative instruments including forward foreign exchange contracts, interest rate swaps and from time to time, foreign currency collars and options to manage the risks arising from variations in currency and interest rates. Derivative instruments purchased are primarily denominated in the currencies of the Group's main markets.

Where forward foreign exchange contracts have been entered into to manage currency risk, they are designated as hedges of currency risk on specific future cash flows, and qualify as highly probable transactions for which hedge accounting is applied. The Group anticipates that hedge accounting requirements will continue to be met on its foreign currency and interest rate hedging activities and that no material ineffectiveness will arise which will result in gains or losses being recognised through the profit and loss account.

The fair value of financial derivatives based upon market values as at 31st December 2011 and designated as effective hedges was a liability of £7.6 million and has been deferred in equity (2010: liability of £4.2 million). Gains and losses arising on derivative instruments outstanding as at 31st December 2011 will be released to the income statement at various dates up to:

- a) 48 months in respect of cash flow hedges on currency denominated UK earnings.
- b) 11 years in respect of specific hedges on USD denominated long term debt drawn under the group's USD Private Placement programme.

No material amounts were transferred to the income statement during the period in respect of the fair value of financial derivatives.

Transactions maturing within 12 months of the balance sheet date are classified in current maturities. Transactions maturing in a period in excess of 12 months of the balance sheet date are classified as non-current maturities.

a) Forward Foreign Exchange Contracts

The Group's major currency transaction exposure arises in USD and the Group continues to adopt a prudent approach in actively managing this exposure. As at 31st December 2011 the Group had outstanding foreign exchange contracts, principally in USD, amounting to a principal value of £671,561,000 (2010: £643,599,000).

b) Interest Rate Swaps and Forward Rate Agreements

The Group uses interest rate hedges, principally interest rate swaps, to mitigate the impact of changes in interest rates. The notional principal amounts of outstanding cross currency interest rate swaps as at 31st December 2011 was USD125,000,000 (2010: USD125,000,000).

c) Price Risk

The group does not have a material exposure to commodity price risk.

11. Trade and other receivables

11. Trade and other receivables		
	2011	2010

Accruals and deferred income	82,217	73,039
Deferred consideration (see note 15)	9,614	8,198
	689,781	687,270

14. Retirement benefit obligations

The Group operates a number of pension schemes throughout the world, the most significant of which are of the defined benefit type and operate on a funded basis. The principal pension schemes are the Jardine Lloyd Thompson Pension Scheme in the UK, the JLT (USA) Employees' Retirement Plan, the Pension Plan for Employees of Jardine Lloyd Thompson Canada Inc and the Jardine Lloyd Thompson Ireland Limited Pension Fund.

The pension costs for the year are comprised as follows:

	2011				2010			
	UK	Overseas	Total	UK	Overseas	Total		
	£'000	£'000	£'000	£'000	£'000	£'000		
Defined benefit schemes Defined contribution schemes	- 14,359	9 11,871	9 26,230	- 14,080	- 10,317	- 24,397		
	14,359	11,880	26,239	14,080	10,317	24,397		

The Jardine Lloyd Thompson Pension Scheme is based in the UK and has two sections; one providing defined benefits and the other providing benefits on a defined contribution basis. The assets of the scheme are held in a trustee administered fund separate from the Company.

With effect from 1st December 2006 the Scheme was amended to eliminate future benefits accrual. Under the Scheme as amended, a participant's normal retirement benefit will be determined based on their service and compensation prior to 1st December 2006.

The latest valuation of the Jardine Lloyd Thompson Pension Scheme was undertaken on a preliminary basis as at 1st April 2011. It is anticipated that this, together with the revised funding plan, will be finalised by the end of June 2012. This preliminary valuation was updated to 31st December 2011 by a qualified actuary employed by the Group.

The principal overseas schemes are:

- a) The JLT (USA) Incentive Savings Plan which is a defined contribution scheme. Employees may contribute up to 50% of their salary subject to an IRS maximum each year \$16,500 in 2011 and the Group contributes at a rate of 100% of each 1% contributed by the employee up to a maximum employee contribution of 4%, up to a maximum of \$ 9,800. Employees aged over 50 may make "catch-up" contributions subject to an IRS maximum each year \$5,500 in 2011.
- b) The JLT (USA) Employee Retirement Plan which is a defined benefit scheme. The latest actuarial valuation was undertaken at 1st January 2011 by independent actuaries. With effect from 31st July 2005 the Plan was amended to eliminate future benefit accruals. Under the Plan as amended, a participant's normal retirement benefit will be determined based on service and compensation prior to 31st July 2005.
- c) The Pension Plan for Employees of Jardine Lloyd Thompson Canada Inc. The JLT Canada Pension Plan has two sections; one providing defined benefits based primarily on the 2007 pensionable salary and the other providing benefits on a defined contribution basis. The JLT pension contribution for the defined contribution plan ranges from 3% to 15% based on age and service. The last formal valuation of the JLT Canada Pension Plan was undertaken as of 31st December 2008 by a qualified third party actuary. The defined benefits section was amended to eliminate future benefits accrual with effect from 1st January 2009.
- d) The Jardine Lloyd Thompson Ireland Limited Pension Fund is a defined benefit pension scheme with assets held in a separately administered fund. The contributions are agreed between the Trustees and the Company based on advice by a qualified actuary. The most recent triennial actuarial valuation for funding purposes was carried out by a qualified independent actuary as at 1st June 2008. With effect from 30th November 2008 the scheme was closed to new entrants and future service accrual. A funding proposal, effective 30th April 2010, was accepted by the Pensions Board.
- e) The Jardine Matheson Executive Staff Retirement Plan (JMESRP), Jardine Matheson Resident Staff Retirement Plan (JMRSRP) and Menu Plan section B and C of the Jardine Matheson Group Retirement Plan (JMGRP). The JMRSRP and section C of the JMGRP provided benefits based on final salary, which were solely funded by the participating employer, while the JMESRP and section B of the JMGRP provided benefits based on final salary, which were funded by both the participating employer and the members.

14. Retirement benefit obligations cont'd

With effect from 31st December 2009, the participation in the JMESRP, JMRSRP and JMGRP (collectively the plans) ceased and the schemes were closed.

The accrued rights of the members in the plans were transferred to the Hong Kong Mandatory Provident Fund (MPF) scheme on 1st January 2010. The MPF scheme provides benefits on a defined contribution basis. The scheme is funded by both the employer and the members. The employer contribution under the MPF scheme ranges from 5% to 15% of the member's monthly basic salary based on an age factor. The MPF scheme is held and administered by a separate trust, which is funded by both the participating employer and the members.

The principal actuarial assumptions used were as follows:

31st December 2011	UK Scheme	US Scheme	Canadian Scheme	Irish Scheme
Rate of increase in salaries	n/a	n/a	4.00%	n/a
Rate of increase of pensions in payment (a) Discount rate Inflation rate Revaluation rate for deferred pensioners Expected return on plan assets (b) Mortality - life expectancy at age 65 for male member: (c)	2.95% 4.85% 2.60%-3.05% 1.70% 6.57%	n/a 4.00% 3.00% n/a 7.25%	3.50% 4.50% 2.50% n/a 7.00%	3.00% 5.10% 2.00% 2.00% 6.10%
Aged 65 at 31st December	23.7	19.6	19.6	21.4
31st December 2010	UK Scheme	US Scheme	Canadian Scheme	Irish Scheme
Rate of increase in salaries	n/a	n/a	4.00%	n/a
Rate of increase of pensions in payment (a) Discount rate Inflation rate Revaluation rate for deferred pensioners Expected return on plan assets (b) Mortality - life expectancy at age 65 for male member: (c)	3.35% 5.45% 3.10%-3.45% 2.60% 6.51%	n/a 5.15% 3.00% n/a 8.00%	3.50% 5.50% 2.50% n/a 7.00%	3.00% 5.10% 2.00% 2.00% 5.20%
Aged 65 at 31st December	23.6	18.9	19.5	21.4

14. Retirement benefit obligations cont'd

- (a) In respect of the UK scheme, retail prices are limited to 5% per annum.
- (b) The expected return on scheme assets assumption was determined as the average of the expected returns on the intended long term asset strategy or the actual assets held by the schemes on 31st December of the previous year.
- (c) Mortality assumptions for the UK scheme are based on 100% PN*A00yobLC0.5%U for pensioners and 105% PN*A00yobLC0.5%U for deferred pensioners.

Mortality assumptions for the US scheme are based on the RP-2000 Mortality Table projected to 2010 by Scale AA.

Mortality assumptions for the Canadian scheme are based on the 1994 Uninsured Pensioner Mortality Table projected generationally using Scale AA for all members.

Mortality assumptions for the Irish scheme, in respect of both active and deferred pensioners, assume that deaths after retirement will be in accordance with standard mortality tables 62% PNML00 for males and 70% PNFL00 for females. Pre retirement mortality has been assumed as nil.

15. Provisions cont'd

Property related provisions

The Group recognises a provision for onerous contracts when the expected benefits to be derived from a contract are less than the unavoidable costs of meeting the obligations under the contract. Provision is made for the future rental cost of vacant property. In calculating the provision required, account is taken of the duration of the lease and any recovery of cost achievable from subletting. Property provisions occur principally in the USA and UK and relate to a variety of lease commitments. The longest lease terms for each country are to 2016 and 2017 respectively.

Litigation provisions

At any point in time the Group can be involved in a variety of litigation issues. A provision is established in respect of such issues when it is probable that the liability has been incurred and the amount of the liability can be reasonably estimated. The Group analyses its litigation exposures based on available information, including external legal consultation where appropriate, to assess its potential liability. Where appropriate the Group also provides for the cost of defending or initiating such matters.

Where a litigation provision has been made it is stated gross of any third party recovery. All such recoveries are included as other receivables within trade and other receivables. At 31st December 2011, the Group's litigation provisions and other receivables include an amount of £0.1million (2010: £1.9 million) to reflect this gross basis. This presentation has had no effect on the Consolidated Income Statement for the year ended 31st December 2011 (2010: nil).

Other

Other provisions include provisions for clawback of commission which arises on certain types of Employee Benefit contracts.

Deferred consideration

Liabilities are credited in respect of additional consideration payable following the initial completion of an acquisition.

The amounts in respect of deferred consideration have been reclassified to trade and other payables. The prior year comparatives have been restated to reflect this treatment.

Acquisition of Alta SA

On 10th October 2011 the Group announced the acquisition of an initial 50.1% of Alta SA, the holding company of Orbital Corredores de Seguros, the 4th largest insurance broker in Chile, and Alta Re, a reinsurance broker which commenced operations in April 2010. It has been a member of the JLT International Network since 2010. The acquired business contributed revenue of £2,098,000 and a net profit of £763,000 to the Group for the period since acquisition. If the acquisition had taken place on 1st January 2011 the contribution to Group revenue and net profit would have been £6,699,000 and £2,325,000 respectively.

Goodwill calculation

Acquisition of FBD Insurance Brokers Group

On 29th December 2011 the Group acquired the FBD Insurance Brokers group of companies in Ireland, an agri-food specialty broker. The acquired business contributed no revenue or net profit to the Group to 31st December 2011. If the acquisition had taken place on 1st January 2011 the contribution to the Group revenue and net profit would have been £3,905,000 and £511,000 respectively

£'000

Purchase consideration - cash paid - deferred consideration - contingent consideration Total purchase consideration Less fair value of net assets acquired Goodwill		5,874 331 870 7,075 299 6,776

Cash and cash equivalents – fiduciary cash in subsidiary acquired		(2,573)
Cash outflow on acquisition		2,377

As at the 31st December 2011, the process of reviewing the fair values of assets acquired had not been completed and consequently the fair values stated above are provisional.

The deferred consideration of £331,000 is based on the completion balance sheet as at the date of acquisition. The amount recognised is based on the disclosed net assets and it will be adjusted on completion if required.

The contingent consideration of £870,000 is based on the net revenue for the financial year to 31st December 2012, which is capped at £1,090,000. The amount recognised at the acquisition date assumes net revenue will reach €4,950,000 in 2012.

None of the goodwill recognised is expected to be deductible for the income tax purposes.

20. Principal risks

As with all businesses, the Group is exposed to a range of financial and operational risks, not wholly within its control, which could have a material impact on the Group's financial performance.

The principal risks to which the Group is exposed are discussed on pages 26 to 29 of the Annual Report & Financial Statements for 2010. The Annual Report & Financial Statements for 2011 will contain an updated discussion on these risks and will be posted to shareholders no later than 26th March 2012.

- 21. The financial information contained in this preliminary announcement does not constitute statutory accounts within the meaning of the Companies Act 2006. The results for the year ended 31st December 2011 are unaudited and statutory accounts have not yet been delivered to the Registrar of Companies.
- 22. Statutory accounts for the year ended 31st December 2011 will be posted to shareholders no later than 26th March 2012 and delivered to the Registrar of Companies following the Annual General Meeting on 26th April 2012.
- 23. The shareholders entered in the Register of Members at 4.00pm on 10th April 2012 will be entitled to the proposed final dividend of 14.8p per share which will, subject to approval at the Annual General Meeting to be held on 26th April 2012, be payable on 1st May 2012
- **24.** Copies of the preliminary press release (and statutory accounts when available) may be obtained from the Company Secretary, Jardine Lloyd Thompson Group plc, 6 Crutched Friars, London EC3N 2PH.
